TEN CENTS A WEEK

## MINERS' STRIKE

Hundred Out at the Woolridge Mines.

### CAUSE OF THE TROUBLE

Refused to Arbitrate Certain Portion of the Company—Matter to Go to United Mine Workers for Settlement.

Gainesville, Tenn., Sept. 17.—A special issue of the Sentinel from Jellico, Tenn., reports that about 300 union coal miners are on strike at the Woolridge coal mines, owned by companies of which James Woolridge is president.

The trouble, it is said, arose over the company's contention that under the contract with the miners, effective July 1, they had a right to employ non-union miners who are tenants of the company property.

The miners, it is claimed, held difficulty and refused to arbitrate, upon a strike resulted.

It is said the matter may go to the United Mine Workers of America, for a decision.

### WILL VOTE FOR BROWN.

Leaders Will Give Hearty Support to Party Nominee.

Gainesville, Sept. 17.—Several of the prominent supporters of Governor Hoke, in the two campaigns in which he was a candidate, asserted unequivocally and positively Tuesday that they would go to the polls and vote for him in the regular election of October for the successful candidate in the last campaign—John Brown.

A suggestion which has been repeated that there would be any change to the nominee, or that the announced friends of Governor Hoke would consider breaking the ranks in participation in that principle, was abundantly dispelled by talks with these gentlemen.

Alexander, of DeKalb, went so far as to say that Mr. Brown would receive more votes from those who had supported Governor Smith than he had from those who carried him to victory in June.

### ALLOW FEVER IN HAVANA.

Texas to Tighten Quarantine Against that Place.

San Antonio, Sept. 17.—State Health Officer Brumby has received from Acting Surgeon General Cates at Washington advice that the Texas health officer of the port of Havana, Cuba, is being asked to occur there within a short time.

Brumby at once tightened the quarantine against Havana on passengers coming there for points in Texas. Passengers were permitted to land at any Texas port immediately upon arrival. Now they will be quarantined for a period of five days from the date of departure from Cuba.

### Old Educator Passes Away.

New York, Sept. 17.—Dr. G. W. Brown, who was the oldest living member of the Union League, and as a school teacher "whaled" Roosevelt in 1884 at his home in this city, died at his home in this city Tuesday. Dr. Brown was eighty-two years old. Dr. Brown, the incident said, was the best of students and was after one of my warmest friends. He always said the soundest thing I gave him made him a better man.

### Prisoner Arrested for Murder.

New York, Sept. 17.—Hurle, a negro, was arrested for the murder of George Tucker, negro, aged twenty-two, who was killed with the killing of Geo. Tucker, aged twenty-three, at the same south of Anderson, when they became involved in a quarrel, it is said, and George Tucker was killed while Hurle stabbed him a knife.

### 10,000 PEOPLE ATTENDED.

Celebration of Debate Between Abraham Lincoln and Stephen Douglas. Jonesboro, Ill., Sept. 17.—The semi-centennial celebration of the great debate between Abraham Lincoln and Stephen Douglas attracted a large crowd Tuesday. It is estimated that 10,000 persons attended the celebration, which was held in the Union county fair grounds in connection with the county fair. The crowd assembled under the same massive oaks which sheltered the famous contestants and their audience fifty years ago.

A native boulder of white limestone weighing 5,000 pounds, inscribed "Sept. 15, 1858, Lincoln and Douglas Debate, Sept. 15, 1858, Celebrated," had been erected on the exact spot where the debaters stood. The tablet was unveiled by Miss Lillian Lanier, of Anna, Illinois.

Addresses were made by Governor Haskell, of Oklahoma, Adlai E. Stevenson, and others.

There were present fifty persons who heard the original debate fifty years ago and who cherished a distinct memory of that occasion.

The greatest curiosity of the day was a small brass cannon which was used by the friends and supporters of Douglas at the time of the debate. It is well preserved and in excellent condition and is owned by Captain Williams, of Cairo.

### WIFE SOLD TO A BOARDER.

Unusual Charge Made by Police Against Cleveland, O., Man.

Cleveland, Sept. 17.—Police are searching for Michael Houssam, accused by his wife of selling her to a boarder, with the furniture of their little home in East Eighty-third street, for \$15.

The wife, mother of four children, told the police Houssam disappeared after he had called her into the sitting room two weeks ago and, after counting over the furniture and stacking it in a pile, accepted three \$5 bills from the boarder and said to her: "Now, you're his."

The woman's story was told to the police through an interpreter.

"There was the wash tub, and the table and two chairs and the bed—and me—all for \$15," she said.

### TORTURED THEIR VICTIM.

Mexican Highwaymen Said To Have Adopted Apache Methods.

Phoenix, Ariz., Sept. 17.—Posses are scouring the country near Kelvin, a mining camp one hundred miles east of here, in search of two Mexican highwaymen who employed an Apache method of torture after committing a highway robbery.

James Martez, a prospector, seventy years of age, was the victim and the booty consisted of his weapons and a small amount of money.

The Mexicans overpowered, bound and blindfolded him, but he managed to escape and started to run. After recapturing Martez the Mexicans again bound him, fastening him to a stake and placed a can of water just beyond his reach. After hours of effort he wriggled out of his bonds and went to Kelvin, where he gave the alarm.

### Senor Corea Resigns.

New York, Sept. 17.—A private message from Nicaragua announces the resignation of Senor Corea, the Nicaraguan minister to Washington, and the appointment as his successor of Dr. Rorolto Espinoza, who is now the Nicaraguan minister of affairs. Mr. Pio Bolanos, who has been for a number of years the Nicaraguan consul in New York, is advanced to the post of first secretary of the legation at Washington without surrendering the office of consul at New York.

### Wright Brothers Hold Records.

Lemans, Sept. 17.—In the field of aviation Wednesday morning Wilbur Wright, the aeroplaneist of Dayton, O., eclipsed all European records for sustained aeroplane flight. He remained in the air for thirty-nine minutes and eighteen and three-fifths seconds. This gives the Wright brothers the records for both hemispheres.

## WON ON FIRST BALLOT

Hughes Re-Nominated by Overwhelming Majority.

807 VOTES WERE GIVEN HIM

Nomination Followed a Bitter Fight By Opponents to Select a Man Upon Whom They Could Unite to Defeat Hughes—Made Unanimous.

Saratoga, N. Y., Sept. 17.—The ticket elected by the New York republican convention is as follows:

For governor, Charles E. Hughes, of New York, re-nominated.

For lieutenant governor, Horace White, of Onondaga.

For secretary of state, Samuel S. Koenig, of New York.

For attorney general, Edward R. O'Malley, of Erie.

For comptroller, Charles H. Gaus, of Albany.

For state engineer and surveyor, Frank M. Williams, of Madison.

For state treasurer Thomas B. Dunn, of Monroe.

For associate justice of the court of appeals, Albert Haight, of Erie, re-nominated.

Governor Hughes was nominated by an overwhelming majority on the first ballot. He received 827 votes.

GOVERNOR HUGHES.

out of a possible 1,000 as against 151 for James W. Wadsworth, Jr., of Livingston county, speaker of the state assembly, and 31 for former Congressman John K. Stewart, of Montgomery.

The nomination was made unanimous upon motion of State Committee man William Barnes, Jr., of Albany, who has been perhaps the bitterest and most outspoken opponent of the governor's re-nomination.

The governor's re-nomination followed the utter failure of a desperate struggle on the part of a number of the county leaders, who for four days have spared no efforts to discover a candidate upon whom they could unite to defeat him.

### BONES OF PATRIOTS MOVED.

Americans Who Died on British Prison Ships During Revolution.

New York, Sept. 17.—The bones of American patriots who died on the British prison ships in the New York harbor during the revolutionary war have been removed from the vault in Green Park, Brooklyn, where they have been for years, and put into the new vault under the steps leading to the prison ship Martyr's monument on the hill in the park.

This monument is from the design of the late Stanford White. It is to cost \$300,000 and will be dedicated this fall. The governors of the fifteen original states have been invited to be present at the dedication.

### Treasury Statement.

Washington, D. C., Sept. 17.—A statement of the treasury balances in the general fund shows: Available cash balance \$183,607,018, gold coin and bullion \$28,179,507, gold certificates \$18,300,000.

### CAROLINA DISPENSARY CASE.

U. S. Circuit Court of Appeals Upholds Judge's Ruling.

Richmond, Va., Sept. 17.—Covering every phase of the South Carolina dispensary case, in an exhaustive opinion, which deals with the broad question of state's rights, the United States circuit court of appeals handed down an opinion Tuesday fully sustaining Circuit Judge Fritchard in the appointment of receivers to wind-up the affairs of the liquor monopoly long maintained by the Palmetto commonwealth.

There was no dissenting opinion. Chief Justice Melville W. Fuller and Judge Edmund Waddill, Jr., sustaining the law as propounded by Judge Boyd. As counsel for the state, M. W. Stevenson, of Bennettsville, S. C., asked for a stay of judgment, in order to prepare an appeal. He wanted sixty days, though the court agreed that the documents could be prepared and filed within forty days; that much time being allowed.

The decision is a matter of paramount importance in South Carolina, where the dispensary has long been the object of attack.

### FATAL POWDER EXPLOSION.

Seven Persons Killed and Thirty Injured in Town in Missouri.

Windsor, Mo., Sept. 17.—Seven persons are dead and thirty injured, as the result of an explosion of a car of black powder at the Missouri, Kansas and Texas station.

When it became known about town that a car of powder was on the tracks at the station, a number of curiosity seekers, a majority of whom were negroes, assembled. A. F. Hershberger, a Missouri, Kansas and Texas freight conductor, became annoyed at their presence.

In moving a keg of powder some of the explosive fell over. Seeing it on the ground, Hershberger remarked: "I'll show you how to scare negroes." He lighted a match and threw it into the powder. Instantly there was an explosion that shook the town, knocked one end off the depot and shattered windows and stopped clocks for miles around. The car containing the powder was hurled in every direction.

### 500 To Return To Work.

Anniston, Ala., Sept. 17.—Five hundred men will go back to work soon as a result of resumption of activities at the plant of the Woodstock Iron and Steel corporation here. Furnace A has just been remodeled and General Manager DeBardeleben says furnace B will be repaired and start soon if the market continues favorable. The plant has a capacity of 400 tons daily, with 25,000 tons high grade ore on hand. J. M. Barr, former president of the board, heads the corporation.

### Prisoner Killed by Marshal.

Hattiesburg, Miss., Sept. 17.—Information has just reached here of the killing of Wm. Whitfield, a prisoner, by V. F. Stamps, town marshal of Hattiesburg, Miss. Whitfield had just been tried and convicted of the robbery of the store of O. T. Hathern two nights previously and was being escorted from the court room back to the jail, when he attacked the marshal in an effort to escape. Marshal Stamps fired five shots.

### League's Season Near End.

Nashville, Tenn., Sept. 17.—The Southern League baseball season closes next Saturday. The race this year is the closest in the history of the Southern Baseball League, only one game now dividing New Orleans, the leaders and Nashville, with Memphis two games behind Nashville. New Orleans will play here the last three days this week, and the result of these games will decide the winner of the pennant for 1908.

### New Georgia Postmasters.

Washington, Sept. 17.—The post offices at Unadilla and Whigham become presidential offices Oct. 1, with salaries of \$1,500 and \$1,100 respectively. Postmasters appointed: Ambrose Coffee county, Ivy W. Monrovia, vice J. R. Cox resigned; Blount, Jones county, John W. Brown, vice J. M. Childs resigned.

## POSSE LED BY WOMAN

Negro Had Attacked Her Nine-Year-Old Daughter.

### HE WAS FINALLY OVERTAKEN

Mrs. Reed, Mother of the Girl, Armed With Gun, Filled the Culprit Full of Birdshot—He Was Then Hurried to Jail to Prevent Lynching.

Powder Springs, Ga., Sept. 17.—After forming and heading a posse to chase Robert Bostick, a negro, who had attacked her nine-year-old daughter, Mrs. Sarah Reed, wife of a prominent citizen, shot the negro full of birdshot as soon as he was overtaken.

Bostick was employed at the Reed home and enticed the little girl into an outhouse, where he attacked her and then fled. When the girl told her mother, Mrs. Reed, her husband not being at home, armed herself with a shotgun, formed a posse of neighbors, and led them in pursuit of the negro. After a long chase the negro was discovered hidden behind a log in the woods.

Mrs. Reed called on the members of the posse to stand back, raised her gun and discharged both barrels into the negro, probably fatally wounding him. She began to reload the gun when the sheriff and deputies rode up and took charge of the negro.

Mrs. Reed, sobbing, begged the sheriff to let her finish Bostick.

The sheriff hurried the negro to Marietta to prevent lynching.

### TO FINANCE COTTON CROP.

Alabama Bankers Will Act for Growers of the Staple.

Birmingham, Ala., Sept. 17.—At a largely attended meeting of farmers, bankers, manufacturers and state officials of Alabama, held Tuesday in the Birmingham Commercial club rooms, steps were taken looking to the bankers of this state financing the cotton crop of this state with the men who make it.

Expressions of opinion on the advisability and feasibility of the bankers and farmers getting together for their common benefit were made by Governor Comer, W. P. O. Harding, president of the First National Bank of Birmingham, and president of the Alabama Bankers' association; C. H. Barrett, president of the Farmers' Educational and Cooperative association and others. W. O. Seed, state treasurer, participated in the meeting. Officials of commercial organizations, cotton mills and other industries in the state were present. Resolutions were adopted to the effect that the bankers of the state will finance the cotton crop of the state. The meeting was enthusiastic throughout and great interest was manifested.

### FEARED SHIP IS LOST.

Acron Sailed from 'Frisco for Australia 72 Days Ago.

Honolulu, Sept. 17.—The British steamer Marama, which arrived here Tuesday from Brisbane, Australia, reports that nothing was seen of the missing steamer Acron, despite the fact that a sharp lookout was kept throughout the entire trip.

The Acron sailed from San Francisco July 6, seventy-two days ago, for Australia and as nothing has been heard from the vessel since sailing, grave fears for its safety are entertained. Insurance is quoted at 60 per cent.

### Freight Handlers Strike.

Rio Janeiro, Sept. 17.—For several days past freight handlers at Santos have been on strike in an attempt to stop the work at the docks, especially the loading of coffee. A cruiser has been sent to that port to preserve order. The strikers took the offensive and threw two bombs into the stores of the company on the docks. Five men were wounded. The operations of discharging and charging the cargo continue notwithstanding, under the protection of the local police.

## VAGRANTS TO WORK SAYS THE MARSHAL

He Has Started Crusade Against Them  
Loafing About City.

### MADE GOOD HAUL ON THURSDAY

Six Offenders Caught, One of Whom Was Released Upon Satisfactory Proof That He Was Going to Work. Law Should Not Be Abused.

Marshal Arnow has made the right move, that of arresting the vagrants in the city who hang around the pool rooms and other places without any visible means of support.

Accompanied by Policeman Owens he made a round Thursday in the vicinity of the Seaboard depot, with the result that he will have five loafers to appear before Mayor Davis this morning.

For some time past a large number of negroes have inhabited this section who do nothing and cannot show the wherewith to even give them an excuse for not being classed as vagrants, and the marshal has wisely decided to put a stop to this condition of affairs.

This is only the first step taken by the officers and from this time on they intend to enforce this ordinance, and if the negroes do not hunt a job the marshal will take charge of them and see if the mayor cannot give them employment on the streets of the city.

With the proper effort the marshal is of the opinion that he will get enough of them to clean up the city and possibly do some repair work on the streets, unless they seek new fields or go to work.

This vagrant law should be enforced, but not abused, for there may be some negroes in the city who are willing to work if they could find work to do. Not every man who is loafing today is doing so of his own choice.

### HE LIKES THE SUN.

R. W. Burts Writes Letter of Interest to Old Comrades.

Honea Path, S. C., Sept. 15.—Editor Sun: By the kindness of my good friend, John Fennell, I have enjoyed the rare privilege and pleasure of reading The Sun for about two years, and as the time for renewal has come, and past, I send herewith post office money order for one dollar (\$1). Please continue to send me the Twice-a-Week Sun for another year.

### Another Matter.

Some months ago it was stated in The Sun that a Mr. Parish (I think that is the name) had returned from Jacksonville, where he had gone to consult a specialist concerning a cancer with which he was afflicted, but had received little encouragement. From that day to this I have felt an interest in that man, and if he has not been relieved I should like to get in communication with him. I can tell him where he can be cured, unless his is a worse case than any I have known in recent years. I know it is said that cancer cannot be cured, but within the last eight or ten years there have been numbers of cases that were called cancers cured within the bounds of my knowledge. Do not understand me to say that I am acquainted personally with each case, but I do know several of them and have heard upon good authority of others. But I will come closer home. I myself had a cancerous sore on my nose treated four weeks ago yesterday, and today it is well. It has healed and looks healthy and well. Of course it is tender yet, but I no longer have to keep a patch over it—have turned it out, so to speak.

I am not an entire stranger in Florida. I was living at Wacahoota when the war commenced and served nearly three years in Company F, Second Florida Cavalry—was paroled at Baldwin on May 17th, 1865, and spent that night in Gainesville. Lieut. (Col.) John B. Dell perhaps has not forgotten me. John and Jim Fennell, and John Fleming of Archer, were among my war comrades.

I mention these facts that you may have some idea who it is writing to you. Jesse Emerson and wife have known me in later years. Jesse Burts and I descended from the same stock and are distantly related.

As I do not know the postoffice address of Mr. Parish, will you please in your own way put me in communication with him?

I am prompted in this solely by a

### MANIFESTO TO THE CLERGY.

Over a Hundred Ministers Declare Their Belief in Socialism.

New York, Sept. 17.—Clergymen to the number of 161, representing 24 religious denominations and 36 states and territories in the United States, besides three denominations and four provinces in Canada, have issued a manifesto to the clergy and churches of America, declaring their belief in socialism and urging a searching of the scriptures and a study of the philosophy of socialism upon all who do not now agree with them.

The signers of the manifesto announce their allegiance to the ministers' socialist conference, one of whose objects is to show that socialism is the economic expression of the religious life.

### Bodies of Murdered Men Found.

Blasée, Ariz., Sept. 17.—The bodies of John O'Leary and John Poe, American prospectors who left last August on a camping trip, were found in the mountains thirty-five miles from Montezuma, Sonora, Mexico. The bodies had been partially eaten by wild animals, but there were indications that they had been murdered, and their camp looted. The authorities are uncertain whether the deed was committed by Yaquis or renegade Mexicans.

### Passed Examination Successfully.

James Donahue, New Britain, Conn., writes: "I tried several kidney remedies, and was treated by our best physician for diabetes, but did not improve until I took Foley's Kidney Remedy. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance." Foley's Kidney Remedy cures backache and all forms of kidney and bladder trouble. J. W. McCollum & Co.

### Six Section Hands Killed.

Kankakee, Ill., Sept. 17.—Six men were killed Tuesday when a Chicago and Eastern Illinois local train struck a handcar at Martindon, Ill., near here. The handcar had been switched to another track to allow a fast train to pass. All the men killed were section hands.

### Mexico's Fourth of July.

El Paso, Tex., Sept. 17.—With booming cannon and ringing bells the celebration of Dade Independence, Mexico's Fourth of July, was begun Tuesday night, and Wednesday's celebration was in full blast throughout the republic.

## He Knows

Consult your doctor freely about medical matters. He knows. Trust him. Do as he says. Follow his advice.

Talk with your doctor about Ayer's non-alcoholic Sarsaparilla. Ask him if he prescribes it for pale, delicate children. Ask him if he recommends it when the blood is thin and impure, and when the nerves are weak and unsteady. Ask him if it aids nature in building up the general health. J. C. Ayer & Co., Lowell, Mass.

### GEORGIA LEGISLATURE.

Both Houses Get Down to Business—Results Hopefully Expected.

Atlanta, Sept. 17.—There was an air of business about the two houses of the general assembly on Tuesday. Both branches evinced a determination to work now for results. It gave promise of a prompt dispatch of business.

The senate passed, by a vote of 25 to 11, the "twenty-seven" bill, so called from its having been introduced by twenty-seven members.

The house took up the measure, and after some debate referred it to the penitentiary committee.

### Bill May Go Through.

The indications now are that with a slight amendment providing that any surplus of convicts may be leased for not more than one year, the house might consent to agree to the latest compromise bill.

Of course, the bill so amended would have to go back to the senate for concurrence or rejection. The house might then recede from its amendment or insist upon it, if insisted upon, the matter would go into conference.

This bill provides that the lease system shall end on March 31, 1909, the date of the expiration of the present contracts.

Misdemeanor as well as felony convicts are subject to the entire control of the prison commission.

Convicts are to be used upon public works.

Counties not using their quota of convicts may lease to others, through the prison commission, and receive credit, the proceeds to be used upon public works.

### Urged to Settle Question.

Strong resolutions urging the legislature to speedily settle the convict question and abjuring them not to permit a continuance of the lease system were read in both houses on Tuesday.

### HAWKING MACHINES.

Catarrh Sufferers Are Nothing But Hawking, Spitting and Blowing Machines, Says an Authority.

Is it possible that in these days when cleanliness and sanitary reform is being preached in the churches, schools and at public gatherings, that thousands of people will continue to suffer from catarrh, when there is an absolutely certain remedy always on hand?

Hyomei (pronounced High-o-me) is a pleasant, medicated and antiseptic air. Breathe it in and it will cure catarrh. It will stop foul breath, watery eyes, and crusts in the nose, in a few days.

"I suffered from catarrh for two years; tried numerous remedies which failed; used one and one-half bottles of Hyomei and am entirely cured."—C. N. Lindsay, 407 East First avenue, Mitchell, S. D.

A complete Hyomei outfit, consisting of a strong, hard rubber pocket inhaler and a bottle of Hyomei, costs only \$1, and extra bottles, if afterwards needed, cost only 50 cents each. J. W. McCollum & Co. sell it and guarantee it to do exactly as advertised.

Hyomei also cures asthma, bronchitis, cough, colds, and infants' croup.

### Official Confessed to Frauds.

Copenhagen, Sept. 17.—M. Alberti, the minister of justice who recently confessed to widespread frauds, was given an examination Tuesday. He stated that in his capacity as president of the Danish Farmers' Export association, which exports vast quantities of butter to England, he had since the moment the business was started in 1888, been engaged in defrauding both the members of the association and those with whom business was carried on. All the books were falsified, he admitted, as well as the financial accounts of the London firms who received the goods.

## FOOTBALL TEAM IS NOW ASSURED THING

Have First Contest With University Eleven October 6th.

ING TO GET GAME WITH JAX.

Practice Will Take Place on Seminary Campus Monday Night. When All Aspirants Will Be Made a Try-Out.

The Gainesville Athletic Association have their first practice game of football on next Monday night on the Seminary campus.

All parties interested in football are urged to be present at the formation of a good eleven. The city are urged to be present at the formation of a good eleven. The city are urged to be present at the formation of a good eleven.

The first game of the association will be played with the University eleven about October 6th, just before the big game with the Mercer College of Macon, Ga., which will better the University boys for the best with this fast set.

The management of the local, or eleven, are now endeavoring to have a game with the Jacksonville team for carnival week, as they believe that in this event it would be a big feature during the big gala of festivities in the State metropolis.

The association have adopted for their uniforms white jerseys and blue stockings, and the emblem will be a "G" with an arrow crossed on it.

Such interest has been manifested by the town boys and they feel sure they will have an eleven which it will be hard to beat, but before they select the players for the team they propose to give all who are in any way interested a show to make good at practice games, when the names of the members will be announced.

## DANCE AT THE ARMORY.

in Honor of the Visiting Young Ladies in City.

The young men of the city tendered a dance to their lady friends at the armory on Wednesday evening. In honor of the visiting young ladies. There were about eighteen couples present and the evening was highly enjoyed until the midnight hour.

The dance was given in honor of Misses Carro Liddon of Ocala, Dea Weeks of Starke, and Anita d'Ferro of Lake City, who are in the city visiting relatives and friends.

During the evening refreshments were served consisting of punch and cake, and the affair was voted a grand success by all present.

## GAINESVILLE PERSONAL NOTES.

Gainesville, Sept. 17.—Mr. and Mrs. M. Andrews attended church at First Grove last Sunday.

J. W. Miller visited his parents here last Sunday. Mr. Miller has just returned from Jacksonville, St. Augustine and several points in Georgia. He reports a very pleasant vacation.

W. H. Pickett has gone to Greenville, where he will visit his sister, Mrs. J. R. Fowler. From there he will go to Atlanta, where he will enter school.

Mr. Blake has returned, after his two weeks' vacation, which was spent in Jacksonville, and points in Georgia.

The ice cream festival for the church last week was a grand success. We realized something over \$100.

Mrs. W. J. Hamilton and daughter, Mrs. J. C. Fortson, expect to visit the former's daughter, Mrs. McCall, at Largo this week.

A. W. Denier and Miss Josie Denier of Newberry visited Misses Emma and Irene Miller last Sunday afternoon.

## NEWS OF CITY AND COUNTY CONDENSED

Boliver Kincaid, who formerly resided in Newberry, was in the city yesterday. He has just returned from an extended trip throughout the West, where he has been for the past summer, visiting California and Colorado principally. The trip has proven highly beneficial to him and made a changed man of him so far as health is concerned.

S. J. Thomas and family expect to make their departure today for Denver, Col., which city they will make their future home. The move has been occasioned by the ill health of Mr. Thomas, and friends here wish him unbounded success in his new home. He has disposed of some of his property interests in this city, but still holds some of Gainesville's realty, as he knows a good thing and does not propose to let it loose.

## JOHN GLISSON KILLED.

Formerly Lived at Bronson, Where He Was Engaged in Business.

John Glisson, who formerly lived at Bronson, was killed in Alabama on Wednesday, when Dr. Bedgood shot him down in front of the postoffice in Flomaton.

Glisson was well known in this section, having married a Miss Smith at Fairbanks while he was in business at Bronson, and will doubtless be remembered by many of the people around Gainesville.

Following is the information received in the telegraphic service, and which we reproduce:

"Pensacola, Fla., Sept. 16.—Dr. T. A. Bedgood, a prominent dentist of Flomaton, Ala., Tuesday shot and instantly killed John Glisson, a blacksmith. The shooting, it is said, was the result of a remark made by Glisson regarding the dentist's family."

"Bedgood saw Glisson standing in front of the postoffice, and crossed the street and shot him through the heart without uttering a word. Bedgood then surrendered."

## Mayor's Court.

There was a special session of the mayor's court yesterday afternoon, when the vagrants were up before Mayor Davis, who let them off for their first offense, but will "deal it out to them" properly upon their next appearance.

John Daniels was let off with payment of costs.

Henry Gliven, Stockert Murray, Hardy White and Orish Miles were allowed their liberty provided they secure employment at once or leave the city.

Bish Thomas was assessed the costs in his case.

John Montgomery, who is another good "hanger on," was assessed the costs.

## WILL FORM CIRCUIT FOR INSIDE GAMES

University, High School, Athletic Association and Guards Comprise League.

## THE FIRST GAME THIS WEEK

New Departure in Baseball for the Fans, as the Promoters Desire That Our People Shall Not Be Lacking for Amusement.

Indoor baseball is one of the new games that will be introduced to the Gainesville public within a few days, and the different teams propose to form a circuit which will furnish games every week during the season.

The game is what is known as "inside" ball, and already the Guards and the Athletic Association have formed teams and will have their first rub at the game this week.

The Guards propose that a league be formed among the different schools, to include the Athletic Association and Guards, which will give the Gainesville people amusement all during the winter months.

The members composing the Guards' team have already indulged in several practice games of this kind, and are just a little ahead of their brothers in the art, but as soon as the High School and University get organized there will be plenty doing in the amusement line.

Star players are to be found on both the Guards and Athletic teams, and after a few practice games they will be in a position to play for the amusement of the public.

## THAT MYSTERIOUS BABY.

Rumored That an Arrest Has Been Made, But Nothing Definite.

There has been practically nothing new in the "baby" case of Waldo since Wednesday, except the report that a prominent young man had been arrested in that place.

Nothing authentic could be learned regarding the matter, but Deputy Kennard of Waldo is making every effort to ferret out the particulars of the occurrence and land the guilty ones in jail.

The little one is still being cared for by the old darkey who found it on her porch, and she will do so until the baby is old enough to be placed in the orphanage in Jacksonville, so we are informed by Waldo parties.

## THE GIRL WITH THE AUBURN HAIR

Is on the outside package of every bottle of Parisian Sage. Should you forget the name simply ask for the package with "the Auburn hair" upon it.

And what a wonderful sale Parisian Sage has made for itself in America in a little over a year. And what a multitude of people have been cured of falling hair, dandruff and itching scalp by its use.

And how the American women praise Parisian Sage for its peculiar ability to turn harsh, faded, lusterless hair into fresh, beautiful, silky and lustrous hair in a few days.

Parisian Sage is today the favorite hair dressing and topic of discriminating Americans, not because of sensational methods of advertising, but because it is the only hair restorer that will do just what it is advertised to do.

It kills the dandruff germ and cures dandruff in two weeks. If it doesn't W. M. Johnson, the agent in Gainesville, will give you your money back.

"I had been troubled with dandruff for five years, but since using Parisian Sage I have not been bothered with it. I only used one-half bottle when I noticed the dandruff disappearing. I consider it the best hair tonic I ever used."—Mrs. C. M. Norton, 450 Main street, Buffalo, N. Y., Aug. 10, 1908.

If you haven't tried Parisian Sage get a bottle today. It is a delightful dressing. The price is only 50 cents a large bottle at W. M. Johnson's or direct, all charges prepaid, by the American makers, Giroux Mfg. Co., Buffalo, N. Y.

If it's printed stationery you want, The Sun office is the place to get it.

## GET FAMILIAR WITH THESE.

As there will be a large number of Presidential Electors on the ballot at the election in November it behooves Democrats to become familiar with the Bryan electors, which are as follows:

For Presidential Electors:

H. P. BAILEY.  
P. W. BUTLER.  
ROBT. E. DAVIS.  
GEO. C. MARTIN.  
SAMUEL PASCO.

Paste this list in your hat, so that when you are asked who the Democratic electors are you may be prepared to give the desired information.

Crude and inferior air-ships are on the market. Wait for the later crops.

Let it not be forgotten that Senator Beveridge also spoke at Youngstown, Ohio.

You will find it advertised—if the man who wants to sell it thought it important enough.

Gilchrist's success in the primary of June 16th has already rid the State of one nuisance.

His triumphal tour to the coast indicates that the West refuses to consider Mr. Harriman an "undesirable citizen."

With the assistance of the President, Secretary Loeb has established a new chapter of the Ananias Club in Wisconsin.

In case of further depression in Minnesota flour circles the baking powder men should not hesitate to tender their assistance.

It is already apparent that before Holland and Venezuela come to blows a great deal of language is going to be spilled on both sides.

The next issue of this paper is the one in which to tell about that property you want to sell—or, at any rate, to begin to tell about it.

Since Tim Woodruff has taken to wearing quieter vests the noise of the Republican quarrel in New York State can be heard for some distance.

A London millionaire is said to be making a hobby of collecting bagpipes. There are so many ways for the rich to blow in their money, you know.

A St. Louis woman is hunting her husband so she can sue him for divorce. He would probably come forward at once if he knew what she wants with him.

Messrs. Taft and Foraker will have to repeat their handshaking stunt a few times before all the Republicans are convinced that there isn't some mistake about it.

Senator Beveridge, in one of his comparisons of the two Presidential candidates, says that Bryan is only an Aaron and that Taft is the real Moses to lead us through the wilderness. In that case Taft will no more reach the White House than Moses reached the Promised Land. That is very good, Mr. Bryan.

## NEGROES ARE QUALIFYING.

(Pensacola Journal.)

If the negroes in other parts of Florida are qualifying to vote in as large numbers as they are in Escambia county, the white Democracy of the State will have to do something besides sit still and look pretty.

There are now over 1,400 negroes in Escambia county who are registered and qualified to vote. Of these, 400 have qualified within the past 30 days. It is estimated that fully 400 more will qualify before election day. There is an organized effort being made now to get every negro in the county qualified to vote in November.

What is being done in Escambia county is no doubt being done all over the State. Add to this the fact that the Republicans are putting out a ticket in all of the principal counties of the State and already have a State ticket to be voted upon all over the State, and you have a situation that is worth considering.

The Republican party cannot, of course, elect a full ticket either in the State or in any county of the State this year. Neither can a rat nibble through a pine door in one night. But there is an eminently fine prospect of the Republicans electing a few county officers or representatives to the Legislature in more than one county in the State today, and with that small beginning it won't take many years for something decidedly worse to happen.

There should be an animated Democratic campaign in every county in the State this year. It will be a good deal easier to keep the State Democratic than it will to make it Democratic after it has once gone Republican.

The main point now is—let every white Democrat qualify to vote. The negroes are doing it, and the white man who fails to do so is a credit neither to his color nor his country.

Republicans are not inclined to discuss the Maine election. Inasmuch as the Republican vote fell off six per cent and the Democrats increased their vote 32 per cent, when our Republican friends are prevailed upon to give a reason for the result they invariably reply that it was brought about by "local issues." But suppose it had been different? Why, of course it would have been heralded as an endorsement of "My policies." Democrats have just cause to rejoice over the result in both Maine and Vermont, for "straws show which direction the wind blows."

The Farmers' Union will petition the next Legislature for the enactment of a law prohibiting the sale of Sea Island cotton in the seed. The object in asking for such a law is to enable the growers to get in closer touch with the spinner and eliminate what is known as the "middle man." Whether it would accomplish the desired result remains to be seen, but it is safe to predict that the union will get what they ask for in this particular.

"Bigger and better than ever," is the announcement made by the Jacksonville Carnival Association concerning the carnival to be given in Jacksonville from October 26 to 31 inclusive. Low rates for the round trip from all parts of Florida are promised.

Careful inquiry among real estate agents fails to disclose a single sale of valuable property to anybody who recently got rich patronizing Mr. Tom Lawson's latest easy-money scheme. Americans are not such lobsters as Tom Lawson thought.

## HOUSEKEEPING.

Marriage may be a battlefield and not a bed of roses, as Robert Louis Stevenson says it is, but if that is true the participants can wear an almost invulnerable armor if the domestic campaign is well studied out, with careful attention given to little things, says Helen Corinne Hambridge, in The October Delineator. For instance: the mere man likes to sit down with his pipe after dinner, and he likes me to sit down with him and talk over the day's triumphs and worries. At first my housewifely soul rebelled at having to let the dishes "set" for an hour or so, and I could see my grandmother shaking her finger at me through the magic rings of smoke; but now I have come to like this period devoted to the digestion of the day's doings and of dinner, as well as the mere man does, and there is no clattering of dishes, or the realization that his wife is working, to disturb his pipe of peace.

All the joy I find in my home, however, is not by the highway of the kitchen, though they say that road leads straight to a man's heart. We do not live by bread alone, praised be Allah! The woman who as soon as she is married closes her heart and brain to all outside interests will end, like Alice did, in shutting up like a telescope. The woman who never reads a book or a newspaper, whose sole topics of conversation are picked up from neighborhood gossip, must in the end weary herself and all those about her. Not that she may never "talk pleasantly and smartly of common things," but that she must know something of "better things."

Of all the professions open to women that of home-making is the greatest. The woman behind the coffee-urn can be greater than the man behind the gun, but how often she goes looking for power far ahead when it lies to her very hand!

The realization of these things does not come in a day, nor in many days. They grow up out of the black soil of failure, and while they may not be rare exotics, they are certainly good field posies for the every-day picking. It is a problem to do one's housework and find joy in it, and into its solving one must bring brain as well as brawn. Above all, must one cultivate a sense of humor. The woman who laughs when her cranberries roll over the kitchen floor, who sees humor in a frozen waterpipe, is magnificent. One may not need to have the song on the lips or the rose garden in the kitchen, but it is necessary to have both in the heart to "sweep a room as by a law divine."

In tariff reform is the only weapon under Heaven with which to destroy the predatory trusts. None understand this more clearly than the trusts. Witness the Roman holiday of the steel trust at Youngstown, Ohio, when Hughes and Beveridge opened the campaign.

The difference between an airship and the price of meat is that the latter will never come down fast enough to hurt anybody.

## TOOTHACHE.

About the Worst Torture That Ever Afflicted Mankind.

"You of the younger generation," said the dentist severely, "don't appreciate the importance of the conquest of toothache that dentistry has made."

"Toothache is the worst torture that ever afflicted mankind. Its pains—'lancinating' they are technically called—are worse than the pains of cancer. Worse than cancer; that is the truth. I have heard it from physicians; I have heard it from three old people whom cancer finally killed. They all said that the pain of cancer at its worst was mild beside the pain of the worst toothache."

"Toothache drove De Quincy to opium eating. De Quincy, too, says in his 'Opium Eater'—like all dentists, I have the passage by heart:

"No stronger expression of toothache's intensity and scorching fierceness can be imagined than this fact, that within my private knowledge two persons who had suffered alike under toothache and cancer have pronounced the former to be on the scale of torture by many degrees the worse. In both there are at times lancinating pangs—keen, glancing, arrowy radiations of anguish—and upon these the basis of comparison is rested, paroxysm against paroxysm, with the result that I have stated."—New Orleans Times-Democrat.

## A VERY PRETTY LETTER.

The Story of Byron's Proposal to Miss Milbanke.

Byron's proposal to his wife, Miss Milbanke, was made after sordid discussion and study and lacked all impulse. Lady Melbourne, who stood in his confidence, observing how cheerless and unsettled his mind and prospects were, strenuously advised him to marry. She suggested a certain lady, but Lord Byron fancied the idea of marrying Miss Milbanke.

"No," said Lady Melbourne; "Miss Milbanke will not suit you. In the first place, she has no fortune now, and you want money immediately. In the next place, you want a person who will have great admiration for your genius; she has too great an admiration for herself."

"Well," said Byron, "as you please." And, sitting down, he wrote a letter to the lady recommended by Lady Melbourne. He received a refusal.

"Now, you see," said he, "Miss Milbanke is to be the person, after all. I will write to her."

As soon as he had finished his friend, still remonstrating, read the note and observed:

"Well, really, this is a very pretty letter. It is a pity it should not go."

"Then it shall go," exclaimed Byron. And, so saying, he sealed and sent the flat of his unhappy fate.

## Rapid Transit.

An express on a certain railroad was tearing away at a wild and awe inspiring rate of six miles an hour, when all of a sudden it stopped altogether. Most of the passengers did not notice the difference, but one of them happened to be somewhat anxious to reach his destination before old age claimed him for its own. He put his head through the window to find that the cause of the stop was a cow on the track. After awhile they continued the journey for half an hour or so, and then—another stop.

"What's wrong now?" asked the impatient passenger of the conductor.

"A cow on the track."

"But I thought you drove it off."

"So we did," said the conductor, "but we caught up with it again."—Ladies' Home Journal.

## The Cheapest Way.

"That tobacco ye're smokin' has a rich bonnie smell, Willie," said the Caledonian tradesman.

"Aye!" assented Willie. "An' it's gude tobacco and cheap. In fact, I get it cheaper than the tobacconist himself!"

"Hoots, mon!" exclaimed the knowing tradesman. "That's an impossibility! Ye canna' get it cheaper than the tobacconist himself! It isna' likely."

"Aye, but I do," asserted Willie, lowering his voice. "Ye see, there happens to be a brither o' my ain wife's in the shop!"

## Breaking It Gently.

"I understand, sir, that you are the possessor of a swollen fortune."

"Well," gruffly answered the beautiful girl's father, "what is that to you?"

"I merely thought that I would give you due notice of my intention to help take the swelling out of it. Myrtle and I are going to be married."—Chicago Record-Herald.

## Not the Suitor's Fault.

Fond Father (trembling with emotion)—You are audacious! You are heartless! She is my only child! Suitor (wishing to pacify)—But, my dear sir, you—or you can't blame me for that.—Illustrated Bits.

Steer a straight course and let the other fellow do the dodging. You'll find the world willing to step aside for a fellow who knows where he is going.—Marcus.

## ACT QUICKLY

Delay Has Been Dangerous in Gainesville.

Do the right thing at the right time. Act quickly in times of danger. Backache is kidney danger.

Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this.

Mrs. A. H. Leonard, living at 304 E. Liberty street, Gainesville, Fla., says: "I feel that from personal experience and from the experience of several of my friends who have used Doan's Kidney Pills, I can endorse them very highly. Any person suffering from backache, headaches, chills, nervousness or any of the other symptoms arising from disordered kidneys will make no mistake in procuring Doan's Kidney Pills at J. S. Bodford & Co's. and give them a trial. They always act quickly, cause no inconvenience, and do all that is claimed for them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## Newton's Light Theory.

Sir Isaac Newton earned worldwide fame by showing that gravitation, previously recognized only at the surface of the earth, is operative throughout the universe wherever there is matter. In another field of physics he was far less happy. His brilliant success in experimental optics came to be qualified, though not invalidated, by a faulty interpretation of the facts. He gave his name and powerful authority to the corpuscular theory of light. In Sir Isaac's view, the phenomenon of luminosity is produced by corpuscles—exceedingly minute particles of matter—which are projected continuously from the sun, stars and all other luminous bodies. But his corpuscles failed to elucidate all the appearances, and Sir Isaac's theory was finally deposed by an explanation which referred light to undulatory vibrations in the ether. It would be some comfort for the discoverer of universal gravitation, were he living now, to realize that the modern physicist is daily dealing with corpuscles flung off from matter at speeds fairly comparable with that of life itself.

## Couldn't Help It.

A young lady tells the following story of an Englishman she met during a trip to Mexico:

The Englishman became acquainted with the American party while they were all guests at a winter hotel. Whenever the parents of the American girl proposed any trip the Englishman immediately begged to be made one of the party. He was to be included in a moonlight trip to a nearby mountain. After the Americans were ready to start they had to delay some fifteen minutes awaiting their guest's arrival. When he did arrive he electrified them by his comments on the reason for his delay. What he said was:

"I beg pardon for my beastly tardiness. Couldn't help it, don't know. I had to bring my mother from the gardens first. It's a singular horrid bore, but one has to be kind to his mother, don't know!"—Milwaukee Free Press.

## His Glasses.

Once that genial comedian Peter Dailey consulted an oculist about his eyes. His nose was small, and he couldn't keep on the glasses with which the oculist was trying to fit him. "You are not used to glasses, Mr. Dailey," said the oculist. "Oh, yes, I am," replied Mr. Dailey, "but not so high up!"

## Wearing Apparel.

Customs Officer (to woman traveler from the continent)—I thought you said, madam, there was nothing but wearing apparel in your trunk. What about these three bottles of cognac?

"Oh, those," said the lady, "are my night caps."—Tit-Bits.

## Bulls.

"Ladies and gentlemen," said an Irish manager to an audience of three, "as there is nobody here I'll dismiss you all. The performance of this night will not be performed, but will be repeated tomorrow evening."

Without danger danger cannot be surmounted.—Publius Syrus.

## HOLES IN GLASS.

They Are Too Tiny to See, but Air Can Work Through Them.

Ordinary tumblers will hold water because the globules of water are too big to squeeze through the glass. But glass is as full of holes as a sponge, and air blows right through it because the specks of air are smaller than the holes.

Put a bell into a big globe of glass, seal up the vessel, pump out all the air, then ring the bell inside, and you hear nothing. There is not air enough in the globe to carry a sound. But lay the globe aside for a month or so, and, no matter how carefully you have sealed up the neck, you will find that you then can hear the bell when you ring it. Air has got into that globe. Enough anyway to carry a sound has leaked in through the substance of the glass.

The ordinary incandescent lamp is a glass globe with the air pumped out, and after a few months sufficient air leaks through to dim the light which comes from the thread of electrified charcoal inside.

We can make plenty of vessels to hold water, but nothing has been made which will hold air without any leakage. The air sneaks in through holes which are too small for the human mind to imagine.

In fact, everything leaks.—London Answers.

## THE END OF THE WORLD.

A Theory That It Will Come by Fire Caused by Friction.

As to the length of time the earth is likely to last, the calculations are that it will not cease to be active for a good many millions of years, such activity not, however, necessarily supposing that life as we know it now will always be possible, the eventuality of a universal ice age being always a contingency that may occur again in the history of the globe.

It is interesting to note that in this connection a Swedish mystic called Stromberg has declared that the world would never know another ice age, but that it was now running out its course to the end. Its existence, he declared, would endure as long as fire burned in the earth's bowels—that is, until the whole mass shall have become solidified. The internal fires, he said, provided the link which maintained the earth in the sun's sphere of attraction. When this attraction shall fail, the earth, according to the Swede, will cease to revolve and will fall away, only to disappear by fire caused by friction, thus verifying the Biblical prophecy. As, however, the process of cooling down entirely will take some billions of years, the nervous person will note that there is really no immediate cause for alarm.—New York World.

## Pepsin, Saliva and Gastric Juice.

Pepsin, the principal agent in the digestion of food, is a powerful solvent stored up in the walls of the stomach and only poured forth when its assistance is needed. When pure, this fluid is perfectly neutral, neither acid nor alkaline, and appears to be unable to exert any action without the presence of an acid. Such acid is supplied in the gastric juice, secreted by the gastric follicles covering the coating of the stomach. The saliva is merely for the purpose of moistening the food, thus preparing it for the action of the pepsin and gastric fluids.—New York American.

## Shawls.

An Indian or a Persian shawl used to be considered one of the finest feminine possessions in the world, and they were handed down from mother to daughter as prized heirlooms. But now if you gave a young woman even a very elegant shawl, costing possibly hundreds of dollars, as many did, she would turn up her beautiful nose at it and if she used it at all would make a portiere out of it for her cozy corner. She would never think of wearing it, even if it were the only thing she had.—Argonaut.

## That Voice.

Before Marriage—"Oh, my darling, your voice is as musical to me as a vesper bell whose tones fall softly on the perfumed air. Speak again and say those words, my beloved, for I could listen to your voice until the stars are extinguished into everlasting night."

After Marriage—"I've had enough of your clapper, old woman, and if you don't shut up I'll leave the house."—London Globe.

## One Good Feature.

"I am not adroit. Each day I do something that makes me worry."

"That's bad."

"Well, each new worry makes me forget the worry of yesterday. It might be worse."—Kansas City Journal.

## Cynical.

Sillicus—What do you consider is the proper time for a man to marry? Cynicus—Oh, I suppose when he hasn't anything else to worry him.—Philadelphia Record.

## The Queer Screw Plant.

There is nothing under the sun quite so quaint, so weird and witchlike as the pagdanus prairies of Fiji. The pagdanus, or screw plant, as it is called, is a most grotesque specimen of the vegetable kingdom even at the best and in the early stages of its growth. In its very young days it is of an extraordinarily screwlike shape and looks as though some unkind hand had taken hold of its long, swordlike leaves and twisted them round and round. Later on it straightens out a bit, and from it grow a number of tall wooden stilts. Its foliage is simple, a number of drooping, ragged tufts, for all the world like mops and very mournful looking. Among these mops hangs the fruit, in shape like a pineapple, made up of hard red and yellow kernels, woolly and fibrous and quite uneatable from a European's point of view.

Millions of bottles of Foley's Honey and Tar have been sold without any person ever having experienced any other than beneficial results from its use for coughs, colds and lung trouble. This is because the genuine Foley's Honey and Tar in the yellow package contains no opiates or other harmful drugs. Guard your health by refusing any but the genuine. J. W. McCollum & Co.

## Explanations in Order.

A man whose wife was extremely jealous planned a pleasant surprise for her in the form of a trip to New York to see "The Merry Widow" and wrote a friend in the city to let him know the earliest date for which he could secure seats. The next day when he was away from home the following telegram was delivered there, addressed to him, but opened by his wife: "Nothing doing with the widow until the 10th. Will that suit you?" Explanations were demanded.

## EVERY NON-PROGRESSIVE MERCHANT

## BECOMES

## Your Competitor

## When You Cease to Advertise Aggressively

WHEN a merchant "slows up" in his advertising, and concludes to "save a little money" in that direction, then the merchant who never had the courage and foresight to advertise adequately BECOMES A REAL COMPETITOR. Even the merchant who never advertises at all reaps a certain amount of profit from the "slowing up" process of the live store.

Not many merchants, of course, who have at any time set the pace for progressive advertising, will be content to take a backward plunge into the company of the non-progressives, of the LITTLE MERCHANTS, the easily satisfied ones, the un-awakes! But that is just what the "live one" does when he imagines that his advertising is costing too much, and that its curtailment means "saving."

If business conditions ever suggest retrenchment in advertising, the wise merchant knows that this should be interpreted as a signal for "full speed ahead," for redoubled efforts to WIN the business that does not come so easily as usual.
